SECTION ONE - GENERAL RULES

Article 1 - Mission statement and philosophy

In accordance with its Constitution, United World Wrestling recognises Beach Wrestling as an integrant part of Wrestling in all her styles, promotional and educational discipline practised around the world in view of promoting their cultural and social values and protecting this world heritage upon which all modern wrestling styles are based.

The Beach Wrestling Commission was created by United World Wrestling to contribute to the structuring and promotion of Beach Wrestling in order to include the sport in all official multi-sport events.

Countless variations of traditional wrestling practiced on sand (referred to as “beach wrestling”) can be identified and they should all receive equal attention from the international community. However, common grounds had to be found in order to allow sportsmen from the different regions and countries to compete in official championships and games. The present rules offer a unified competition system that encompasses all major trends of beach wrestling and make the sport easy to understand by the spectators and media and easy to judge by the referees.

Article 2 - Objectives

The international rules set forth in the present document constitute the framework within which beach wrestling is conducted and promoted and have as their specific objectives to:

- Establish the competition system, classification, technical points, penalties, eliminations, etc.
- Define and specify the practical and technical conditions under which a match is to take place.
- Determine the value to be assigned to actions and holds.
- List the situations and prohibitions.
- Determine the technical duties of the refereeing body.

Article 3 - Application of the Rules and United World Wrestling Licence

The rules defined in the present document shall be in effect for all United World Wrestling sanctioned events in order to ensure optimal safety of the athletes and a healthy growth of the discipline.

The United World Wrestling licence is mandatory for every international beach wrestling competition with more than two participating countries. Every international competition must be reported to United World Wrestling and added to its official calendar. The United World Wrestling insurance will only apply to competitions that appear in the calendar.

Wrestlers are prohibited from wearing bandages on the wrists, arms or ankles except in the case of injury or on doctor's orders. Long-haired athletes must attach them or have a pony tail. Wrestlers shall be well groomed and their hair and skin shall be free of any greasy, oily or sticky substance.

Wrestlers may not arrive perspiring for the beginning of the match. The referee may require a wrestler to towel off at any time during the match.

The athletes must be warned that if their appearance or uniform are not compliant, they will not be allowed to enter the competition. The wrestlers who enter the competition area with an appearance that does not conform to the present regulations will be given 2 minutes to change it; otherwise they will lose the match by forfeit.

Article 7 - Competition System

If less than 6 wrestlers are entered in a weight category, the competition system follows "Nordic system" with each competitor fighting each competitor.

If between 6 and 10 wrestlers are entered in a weight category, a competition system with two groups will be organized. In each group, all competitor will fight with each competitor and as the "Nordic system", the wrestlers will be ranked according the following criteria:

In the competition system with two groups, the two first from each group will fight for the 1st and 2nd place. The two second from each group will therefore fight for the 3rd and 4th place. If the organizer wants to organize more final matches, the process will be done like that:

Final for the places 9 and 10
Final for the places 7 and 8

Final for the places 3 and 4
Final for the places 1 and 2

This special request must be approved by United World Wrestling.
